# OUR BEST MOMENTS

## TASKS FOR OUR STUDENTS

**Ilaria :** I'm a P.E. teacher and, for my student i will use methodologies that Aisling used with us. I think it is very useful and functional to immediately put into practice what we have learned in theory using games and teamworking. I will teach also the steps of typical irish dances such as Riverdance.

**Judit:**I teach German in a secondary school in Budapest. I found the teaching with Padlet in our lessons very efficient. I would like to try to use it in my classes in September. The task in the National Gallery of Ireland, to find our favourite picture and speak about, I liked it very much. I learned, that we don't need a high level to speak about things, we like. The class with Aisling was very motivational for me.

**Sylwia:** I will use photos from St. Patrick's Cathedral and Christ Church Cathedral to present Gothic art in Europe.  
„In cooperation with language teachers, I will prepare an Irish Culture Day.

**Lillo:** I am a P. E. teacher and I am very interested in sports. I was very impressed by Irish sports, such as Hurling and gaelic football. I would try to play them with my students in Italy. I also liked how our teacher did the lessons with lot of different activities that help us to work in group. I Will try to do the same with my students.
